

Create your heart-shaped route

STEP
1

Go to [Google Maps](#) on your desktop computer

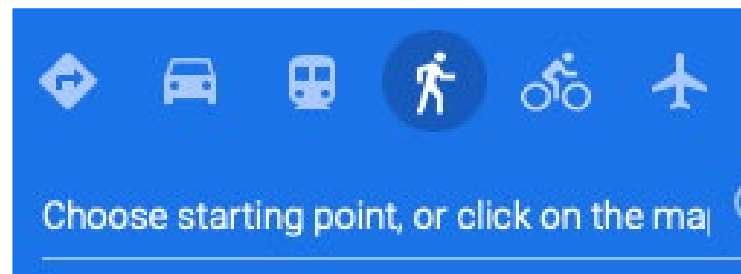

STEP
2

Open Directions by selecting the blue icon with arrow

STEP
3

Select your activity method

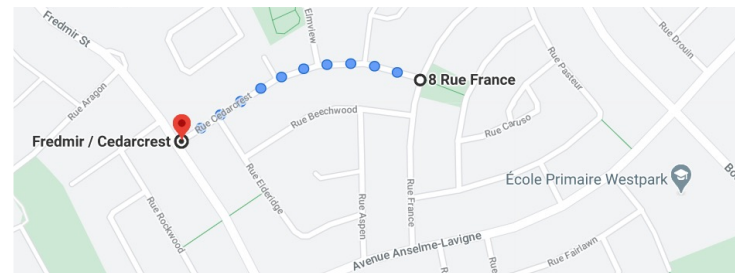

STEP
4

Enter your starting address or click the location on the map

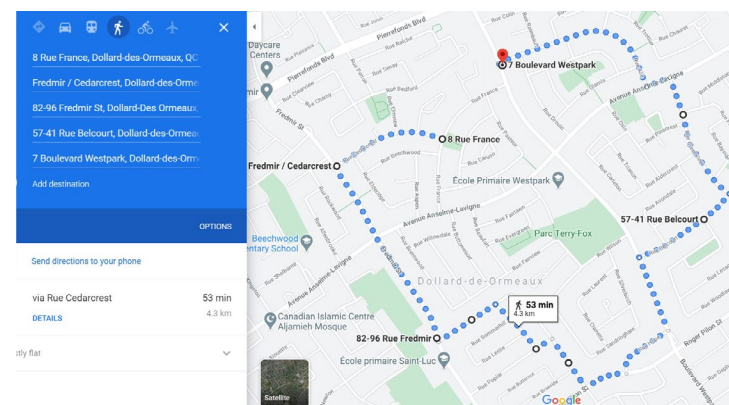

STEP
5

Begin creating your route by clicking on the map to draw the first part of your heart

STEP
6

- Continue to plan your route by using the add destination button.
- Then, click and drag the blue dots on the map to keep drawing your heart.
- You can add as many as nine destinations and drag them around on the map to create the shape of your heart.

STEP
7

To save your map, click on the blue hamburger menu 

- Click on share or embed map 
- Share to Facebook or Twitter using the [#HeartandStrokeRideAsOne](#)
